

71-00-10 Flexo-Folder-Gluer Glue Station

Photo Sensor Bracket – Equipped with a fully adjustable photo sensor bracket with spring steel lead-in guide.

Tab Removal Brushes – Brass tab removal brushes to reduce static electricity and removal of unwanted tabs.

Full Adjustments – Horizontal, vertical, and lateral adjustments with quick release locking handles.

Quick Changes – Valves and applicator heads can be easily removed from the bracket by loosening two nuts.

Adjustable Spring Steel Guides – for both top and bottom applications.

Versatile – Glue station can be moved easily from left to right side of machine by simply mounting components on the opposite side of main station plate.
